Hyderabad, India.

Career Objective:

As a fresher I am looking actively for job opportunity as a Front-End Developer where I can leverage my expertise in HTML, CSS, and JavaScript to design and develop innovative websites and tools. With strong communication skills and a knack for multitasking, I aim to collaborate effectively across departments to deliver exceptional software solutions. Dedicated to utilizing my proficiency in decision-making and in productivity tools like Google Docs and Microsoft Office to contribute to team success and drive company growth in a remote work environment.

Education:

Qualifications	School / College	Board / University	Year Of Passing	Percentage / CGPA
BTech	Nalla Malla Reddy Engineering College	Autonomous	2024	6.9 CGPA
Diploma	Government Institute of Electronics	Autonomous	2021	65.4 CMA
Matriculation	SSC in Sri Chaitanya School	SSC	2017	8.2 CGPA

Internships:

- ➢ Company Name: Flipkart
  Gained hands-on experience in time management, communication, and decision-making.

- Company Name: Ravi Bio Impex
  Duration 6 months where I gained practical experience in time management, teamwork, and communication skills in a dynamic and supportive environment.

Projects:

- Photo Search [JavaScript]
  This Website is a user-friendly application that allows users to easily search, discover images and download their favourite images. I used JavaScript and APIs to get images and display details like number of views, likes, uploaded by, date of uploaded and short description of image.
- Weather Forecast [JavaScript]
  Developed a dynamic Weather Forecast application using JavaScript and APIs to provide accurate real-time weather data. The project features a user-friendly interface that displays current weather conditions, forecasts, and location-based updates and engaging user experience while responsive design principles ensure compatibility across various devices.
- Portfolio Website
  Here, you'll find a collection of my projects each project demonstrates my attention to detail, proficiency in coding, and passion for design, ensuring an engaging user experience. Explore my work to see how I transform ideas into functional and attractive websites.
